

RGBColor

```
classDiagram
    class RGBColor
    class Leds
    Leds --|> RGBColor
```

The diagram shows a class hierarchy where 'Leds' inherits from 'RGBColor'. 'RGBColor' is represented by a white box with a black border, and 'Leds' is represented by a grey box with a black border. A dashed purple arrow points from 'Leds' to 'RGBColor', with the label 'm\_ledColors' placed to the right of the arrow.
