

VortexEngine/src/Menus
/MenuList/GlobalBrightness.h

```
graph BT; A[VortexEngine/src/Menus/MenuList/GlobalBrightness.cpp] --> C[VortexEngine/src/Menus/MenuList/GlobalBrightness.h]; B[VortexEngine/src/Menus/MenuList/GlobalBrightness.h] --> D[VortexEngine/src/Menus/MenuList/GlobalBrightness.h];
```

The diagram illustrates a dependency structure in a code project. At the top is a header file box, 'VortexEngine/src/Menus/MenuList/GlobalBrightness.h', which has a light gray background. Below it are two source file boxes: 'VortexEngine/src/Menus/MenuList/GlobalBrightness.cpp' on the left and 'VortexEngine/src/Menus/MenuList/GlobalBrightness.h' on the right. Both source file boxes have a white background. Two blue arrows point from the source files to the header file, indicating that both source files depend on or include the header file.

VortexEngine/src/Menus
/MenuList/GlobalBrightness.cpp
